Agreed Valuation Specialist Vehicle

To guarantee that your specialist vehicle is properly insured it is important to get it valued. This will ensure that the amount agreed for your vehicle will be guaranteed for 2 years should the worst happen, it could also save you some money in the process.

Obtaining a valuation can be time consuming so we have tried to make the process as simple and straightforward as possible but, if you have any questions, please phone us and we'll be happy to help.

Vehicles Under £100,000

If you feel that your vehicle has a value of £100,000 or under, all we require is for you to fill in this form and send it back with photographs (*as detailed below*) along with a £24 fee for the service. This is payable either by cheque, or if you would prefer to pay by card; give us a call. Agreed value may not be available for vehicles under £2,000 in value.

Vehicles Over £100,000

If you feel that your vehicle has a value which is in excess of £100,000, you will need to have this form filled in (or a separate valuation on official letterhead) by a relevant Car Club Official, Automotive Valuer or Vehicle Assessor and send it back with photographs (*as detailed below*).

Things To Remember

Please be realistic with your valuation. The figure that we agree will be the current market value of the vehicle and unfortunately cannot take into account the cost of restoration or any sentimental value. If you have recently purchased the vehicle, the purchase price will be the agreed value. Though it is human nature to over-value our possessions, we hope that you will provide a fair assessment of the value which will then be compared to current market publications to ensure accuracy and fairness.

We reserve the right to decline any value, ask for further information or request a second opinion on vehicle valuations which we do not feel to be correct.

If you choose not to supply any valuation details or vehicle images we will insure your vehicle at market value. In this instance, if you do subsequently need to make a claim, the value is then at the discretion of the insurance company's engineers.

Photographs

We will need to see a minimum of six different colour images (front, back, both sides, interior and engine bay) of the vehicle with the number plate clearly visible in at least one. These need to be recent photographs, preferably less than 3 months old, though discretion will be given. Images can be posted to us or sent by email to valuations@classiclineinsurance.co.uk with the subject 'Valuation Images' and your details in the body text.

Completed Forms

When you have completed this form, please either post it back to the address listed at the top of this form or email it (along with any photographs and other applicable files you wish to attach) to valuations@classiclineinsurance.co.uk

Condition Scale

In order to simplify the process of describing the condition of your vehicle, we have split the valuation into five rating choices. This approach helps us to correctly assess the condition of your vehicle. The categories are:

- | | |
|---------------------------|--|
| C Concours | Perfectly restored or immaculately preserved in its original condition with no further work necessary. Vehicles with a historic significance could be appropriate for this category. |
| 1 AI Condition | Genuinely excellent, in a totally original or restored condition and with a real potential, pending slight improvements, to reach the level of 'Concours'. |
| 2 Good Condition | Regular quality but without the potential to be 'Concours' standard. Free from any significant faults though lacking history and/or originality. |
| 3 Standard Quality | Reliable and holding a current MOT Certificate but would benefit from some attention. |
| 4 Driveable | Usable but in need of major work. |

Declaration

I certify that the information supplied on this form is a true and accurate reflection of the insured vehicle's current condition and that the photographs have not been altered, modified or enhanced. If the value is misrepresented to Underwriters, and the condition of the vehicle is subsequently found to be significantly different to that described above (allowing for normal wear and tear), the agreed value endorsement will become null and void.
