

Agreed Valuation Motorcycle

To guarantee that your motorcycle is properly insured it is important to get it valued. This will ensure that the amount agreed for your motorcycle will be guaranteed for a year should the worst happen, it could also save you some money in the process.

Obtaining a valuation can be time consuming so we have tried to make the process as simple and straightforward as possible but, if you have any questions, please phone us and we'll be happy to help.

Motorcycles Under £100,000

If you feel that your motorcycle has a value of £100,000 or under, all we require is for you to fill in this form and send it back with photographs (*as detailed below*) along with a £12 fee for the service. This is payable either by cheque, or if you would prefer to pay by card; give us a call. Agreed value may not be available for motorcycles under £2,000 in value.

Motorcycles Over £100,000

If you feel that your motorcycle has a value which is in excess of £100,000, you will need to have this form filled in (or a separate valuation on official letterhead) by a relevant Motorcycle Club Official, Automotive Valuer or Vehicle Assessor and send it back with photographs (*as detailed below*).

Things To Remember

Please be realistic with your valuation. The figure that we agree will be the current market value of the motorcycle and unfortunately cannot take into account the cost of restoration or any sentimental value. If you have recently purchased the motorcycle, the purchase price will be the agreed value. Though it is human nature to over-value our possessions, we hope that you will provide a fair assessment of the value which will then be compared to current market publications to ensure accuracy and fairness.

We reserve the right to decline any value, ask for further information or request a second opinion on motorcycle valuations which we do not feel to be correct.

Please note an independent valuation must remain unbiased and impartial, valuations found to be completed by persons remunerated for any services carried out to the said motorcycle, will be declined.

If you choose not to supply any valuation details or motorcycle images we will insure your motorcycle at market value. In this instance, if you do subsequently need to make a claim, the value is then at the discretion of the insurance company's engineers.

Photographs

We will need to see a minimum of four different colour images (front, back and both sides) of the motorcycle with the number plate clearly visible in at least one. These need to be recent photographs, taken no longer than 90 days ago. Images can be posted to us or sent by email to valuations@classiclineinsurance.co.uk with the subject 'Valuation Images' and your details in the body text.

Completed Forms

When you have completed this form, please either post it back to the address listed at the top of this form or email it (along with any photographs and other applicable files you wish to attach) to valuations@classiclineinsurance.co.uk

Condition Scale

In order to simplify the process of describing the condition of your motorcycle, we have split the valuation into five rating choices. This approach helps us to correctly assess the condition of your motorcycle. The categories are:

- | | |
|---------------------------|---|
| C Concours | Perfectly restored or immaculately preserved in its original condition with no further work necessary. Motorcycles with a historic significance could be appropriate for this category. |
| 1 AI Condition | Genuinely excellent, in a totally original or restored condition and with a real potential, pending slight improvements, to reach the level of 'Concours'. |
| 2 Good Condition | Regular quality but without the potential to be 'Concours' standard. Free from any significant faults though lacking history and/or originality. |
| 3 Standard Quality | Reliable and holding a current MOT Certificate but would benefit from some attention. |
| 4 Rideable | Usable but in need of major work. |
